 - Mobility project for higher education students and staff
 - Student mobility for studies
 - Student mobility for traineeships
 - Staff mobility for teaching
 - Staff mobility for training
 - Blended intensive programmes
- Key Action 2 (KA2) - Cooperation among organisations and institutions:
 - Partnerships for Cooperation
 - Partnerships for Excellence – European Universities
 - Partnerships for Excellence - Erasmus Mundus Joint Master Degrees
 - Partnerships for Innovation
 - Alliances for Innovation
- Key Action 3 (KA3) - Support to policy development and cooperation.
- Jean Monnet Actions

Strategy, objectives and impact

What would you like to achieve by participating in the Erasmus+ Programme? Which are the policy objectives you intend to pursue? Describe how the participation fits into your institutional, internationalisation and modernisation strategies.

What is the envisaged impact of the participation on your institution? Explain how you expect the participation to contribute towards achieving the objectives of your institutional strategy. Explain how it will contribute to making your institution more modern and more international. Explain how you expect the participation to contribute to the goal of building a European Education Area.

Note: The objectives should be clear, measureable, realistic and achievable.

Indicators

For each objective, define appropriate indicators for measuring achievement (e.g. mobility targets for student/staff mobility, quality of the implementation, support for participants on mobility, increased involvement in cooperation projects, sustainability/long-term impact of projects, etc.). Link the targets to a timeline.

 *If you change your activities or objectives, please don't forget to update the EPS on your website and inform your Erasmus+ National Agency.*

Participation in Erasmus+

Our aim is to send Higher Education students who are studying Hairdressing and Beauty and Electricity and Electronics to different European Union companies.

Strategy, objectives and impact

The strategy is to send students to companies in different European Union nations to work and receive professional training.

The objectives are:

- to learn and share new work techniques
- to share work experiences
- to learn new team and company organisation.
- to boost the learning of a foreign language and foster a deeper knowledge of a foreign culture.
- to strengthen a European strategy of collaboration respecting principles of equality and non-discrimination.

The impact of taking part in an Erasmus + project is both individual and institutional. The students taking part benefit in several key areas: The students receive a highly valuable professional training, on the other hand, they benefit from the experience in that they have an enriching cultural experience.

Also, the whole Erasmus+ experience has a positive institutional impact. Our school benefits in that our students come back and show us new work techniques, company organisation strategies and a new methodology. Both teaching staff and students at large benefit from such learnings. In fact, future school activities are modified and evolve as we receive the positive input from our Erasmus+ students.

Indicators

The indicators will be clear and concise. Each student who takes part in an Erasmus+ project will have a tutor in our school. The tutor will carry out a systematic regular evaluation of all activities the student is involved in. Forms will be completed on a regular basis to evaluate key aspects.
